SUMMARY

A results-oriented Full Stack Developer with 3 months of hands-on experience in building, testing, and deploying dynamic and responsive web applications. Proficient in modern JavaScript (ES6+), React.js, and managing application state using the Context API. Skilled in translating UI/UX designs into clean, scalable, and maintainable code. Additionally, equipped with a strong foundation in Core Java, including OOP concepts, collections, exception handling, and basic JDBC. Well-versed in Agile methodologies and committed to delivering high-quality user interfaces and seamless user experiences.

WORK EXPERIENCE

MERN Stack Developer
Aasmo Digital Pvt Ltd Indore,
May 2025 – October 2025 (3 months)

- Developed and optimized responsive, reusable UI components using React.js (Hooks, Router, Context API), improving application performance and user experience.
- Integrated frontend with RESTful APIs built in Node.js and Express.js to enable dynamic data fetching and seamless interaction with backend services.
- Implemented application-wide state management using React Context API, ensuring consistent data flow and efficient state handling across components.
- Collaborated within Agile Scrum environment, contributing to sprint planning, daily stand-ups, code reviews, and timely delivery of high-quality features.

Skills

- Frontend : HTML, CSS, JavaScript, React.js
- Backend : Node.js, Express.js, Core Java
- Database : MongoDB, MySQL
- Tools   : Git & GitHub, Postman, VS Code

PROJECT

1) Natural Thread (E-commerce Frontend)

- Developed a fully responsive front-end for an e-commerce platform, focusing on a clean and intuitive user experience.
- Engineered a global state management system using React Context API for handling the shopping cart and user data efficiently.
- **Technologies**: React.js, JavaScript, HTML5, CSS3, Context API

2) MERN Stack Web Application

- Developed a full-stack web application with complete CRUD functionality, enabling users to create, read, update, and delete data efficiently. Built RESTful APIs using Node.js and Express.js, connected to MongoDB for data storage. Designed a responsive frontend with React.js, ensuring seamless interaction with backend services. Focused on writing clean, modular code and implementing error handling for robust performance.
- **Technologies**: React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs.

3) Command-Line Quiz Application

- Demonstrated a strong command of Core Java and OOP principles by developing a console-based quiz application.
- Implemented file I/O for data persistence (reading questions and writing scores) and robust exception handling for application stability.
- **Technologies**: Core Java, Object-Oriented Programming (OOP), File I/O

EDUCATION

Master of Computer Applications (MCA)
Lakshmi Narain College of Technology (LNCT), Bhopal
Aug 2023 - June 2025 │ CGPA: 8.4

Bachelor of Computer Applications (BCA)
Seva Sadan Mahavidyalaya College, Burhanpur
Aug 2020 - Aug 2023 │ CGPA: 7.3

Higher Secondary (12th)
Govt. Higher Secondary School, Bambhada
May 2020 │ Percentage: 70.60%
